- A clear, bright mineral water with an excellent clarity.
- Neutral aromas; clean and fresh on the nose, with excellent mineral qualities. Shows low intensity of unnatural perfumes, even though there are some subtle notes of iodised scents.
- Silky and perfectly-rounded water. Palate is refreshing, with an amazing mouthfeel. Very good minerality following through. Thirst quenching and very persistent in the mouth.
- Slightly sweet aftertaste. Full-bodied, with low acidity. Pleasant and persistent final sensations. Very slight bitter hints at the end, which is very nice.
- Elegant and graceful mineral water with good minerality. Very fresh and balanced - a fantastic product.
